DIDSBURY, ALBERTA, THURSDAY, JULY 28, 1922

\$2.00 per Year. 5 cents a copy

## Splendid Stock Exhibit At Didsbury Fair

Despite the fact that except for a number of special prizes, ribbons were the only awards given to the successful exhibitors, the Didsbury fair proved to be an outstanding success. While the number of exhibitors was not quite as large as last year, the quality of the stock shown was well up to standard.

Mr. Chas. Yule, who was the cattle judge, in commenting on the exhibition, said that he considered the stockmen of Didsbury and Carstairs districts were the sportiest exhibitors he had come across in all his show experience.

A detailed report of the prize-winners will be given next week.

In the softball tournament Melvin beat West Didsbury 28-11; Didsbury beat Springdale 23-5; Melvin beat Rosebud 19-5. In the final Melvin copped the prize in a tight game with Didsbury by a score of 10-7.

In the evening Didsbury and Olds baseball teams met on the Didsbury diamond and played a right ball up to the 7th, with Didsbury leading 1-0. In the last two innings the home team made seven more runs, while the visitors made three runs, the final score being: Didsbury's Olds 3.

The children's races attracted lots of entries and the two bicycle races proved quite an attraction. Lawrence Gabel 1st and Raymond Bell 2nd were winners in the race for 13 years and under, and Al Benson 1st and Gabe Gabel 2nd, winners in the 14 and under event.

## WEDDING

WILSON—St. CLAIR.

A quiet wedding, of wide interest to the people of Didsbury, was solemnized in Red Deer on Monday, July 25th, when Miss Juanita Wilson and Bessie St. Clair, both of Didsbury, were united in marriage by Rev. Hugh Jack, of Red Deer Knox Church, the ceremony taking place at the manse at 4.30 p.m.

The young couple were attended by Miss Nellie Wilson, sister of the bride, and Mr. Billie Shoebottom, of Olds.

The bride was charming in navy-blue flat crepe, with accessories to match.

After a short honeymoon, spent at the Red Deer Exhibition and Sylvan Lake, the happy couple will reside on the groom's farm, north-east of Didsbury.

## Calf Club Picnic.

The basket picnic of the Olds Calf Club is to be held at the Olds Club of Agriculture on Wednesday, August 3rd. The date originally selected clashed with the Didsbury and Red Deer fairs.

Members of the Calf Club and their friends are cordially invited to the picnic. Coffee and tea will be provided about 12.30 or 1 p.m. An opportunity will be given to see the grounds, the farm, the stock, etc. and members of the Club will take part in a stock judging competition.

## LOCAL & GENERAL

Mrs. Gerty Baus, of Ponoka is spending a few days with Miss Laura Smith.

Mrs. Ivan Weber and her mother, Mrs. Goodhand spent a few days in Calgary last week.

There will be services at Bethel Evangelical Church at Westcott on Sunday afternoon at 2 o'clock.

Mr. and Mrs. Harold Clemons, of Edmonton are visiting the former's parents, and other friends in the district.

Holly and Lottie Hansperger, Aileen St. Clair, Elva Fisher and Grace Irwin returned from their vacation at Sylvan Lake on Sunday.

Mr. J. H. Loefer, manager of the Royal Bank, who has been on vacation for the past three weeks, is back at his desk again.

Rev. R. K. Frowbridge, rector of St. Cyprian's Church, leaves this week-end for the Great Lakes, where he will spend his holidays.

Jim McGhee, Ward Keith, Walter McCoy and W. J. McCoy claim to have made real good catches at the Big Hole on the Fallen Timber on Sunday.

The sermon subject at Zion Evangelical Church Sunday morning will be: "Earnestly Going Forward," and in the evening: "The Mercy of God."

Miss Jean Ryan, of Pincher Creek, daughter of Mr. and Mrs. A. E. Ryan, formerly of Didsbury, is visiting at the home of Mrs. Smith and daughters.

The regular monthly meeting of the Canadian Legion will be held in the Oddfellows' Hall on Saturday night. There will be important business, and all members are requested to attend.

The Alhambra Brotherhood of Zion Evangelical Church will hold a banquet at the United Church Parlors on Friday evening at 6.20 o'clock. Bishop S. P. Spring, of Naperville, Illinois will speak.

Local news of your town and district makes the weekly newspaper interesting. If you have visitors or have been visiting, know of any interesting event of social, lodge, club or general nature, phone the Pioneer, No. 12.

St. George's Guild, of Harnattan will hold a picnic at Mrs. Heaton's on the Dog Pound, Wednesday next August 3rd. All members of the Anglican Church, and other friends are cordially invited. Please bring lunch baskets, tea will be provided.

Clint Reiber, Tommy Johnson, Hugh Lee and Eddie Ford are planning a fishing trip to Jasper Park. They have heard that Irvin Cold, Grantland Rice, and other U.S. celebrities have had good success in fishing in the lakes and streams of this famous park. They don't mean to be outdone by the fellows from across the line.

## Legion Memorial Nears Completion

The memorial cairn, which is being erected by the members of the Didsbury branch of the Canadian Legion in honor of the men who gave their lives during the Great War, is nearing completion.

The memorial, which is 22 ft. high is being built of native rock on a concrete base, and in its location on the Butte, makes an imposing structure which can be seen for miles.

A large bronze tablet, suitably inscribed, will be placed on the face of the cairn.

The date of unveiling has not yet been set, but it is expected to take place one Sunday afternoon in August.

The date will probably be arranged at the meeting of the Legion to be held on Saturday evening.

## Crop Conditions.

Mr. Dave Edwards has just returned from a two weeks' tour of inspection for the hail insurance companies. He reports that the crop conditions in the north country are spotted, and in the main light, with considerably scattered hail losses.

In the south from Lethbridge to Medicine Hat heat and hot winds are lightening the prospective yields, and in some areas the crops are burning.

Mr. Edwards states that the best crop conditions he has seen are between Calgary and Lacombe, especially west of the C.P.R.

## Western Wheat Cutting Starts Monday, Aug. 1st

Nearly all Western Canada's wheat crop is in head, and in the earliest districts of Manitoba and Saskatchewan filling and ripening are under way. Wheat cutting is due to start about August 1st, states a report issued by the Dominion bureau of statistics.

## Young Man Missing, Following Farm Fire

Fire destroyed the farm home owned by Mr. Ralph Honey and occupied by his son-in-law, Mr. Dave Janzen, on the Dog Pound west of Didsbury on Sunday. The loss, including furniture is estimated at about \$1,500. There was no insurance on the building, but a hail insurance on the contents.

Shortly before the fire Mr. and Mrs. Janzen had left the farm to visit with Mrs. Janzen's parents, and John Janzen, of McMan, Sask., who was staying with them, had started to remain at the home.

The fire was discovered by a party of young people who were swimming in the creek nearby, but they were unable to save any of the contents in the building.

Young Janzen has been missing since the fire, and Constable Dabham, R.C.M.P. investigated. After a search of the ruins he expressed the belief that the youth did not perish in the fire.

It is thought that Janzen lit a fire to cook supper, probably using coal oil for that purpose and that the fuel exploded.

A thorough search of the district has failed to locate the missing lad.

## Farm House And Buildings Destroyed

Another fire of farm buildings was reported Wednesday afternoon, when the buildings on the farm of John Wazari, 9 miles east of town, were destroyed shortly after noon.

Mr. Wazari was in the field and the rest of the family were away when the fire started in the barn. The strong south wind carried the fire to the chickenhouse and then to the house. Before any assistance came all the whole buildings were aflame and nothing could be saved.

It is thought the cause of the fire was spontaneous combustion in some new hay that had recently been stored in the barn. It is estimated that the loss would be about \$3,000 which was partially covered by insurance.

### Ourselves.

Bruce Barton, the well known author and magazine writer, has proposed the toast: "To the only one who can make us or break us—to Ourselves." And he quotes the saying of Carlyle: "The world's being saved will not save us; nor the world's being lost destroy us. We should look to ourselves."

The truth of these statements, differently worded but meaning exactly the same thing, cannot be gainsaid. The biggest factor in the world now, as always, is the individual. No man is actually down and out, defeated, unless and until he himself admits defeat. Furthermore, more people are destroyed by prosperity than by adversity; more people fail to grasp and enjoy the realities of life when the gods are showering them with riches or other gifts than when they are faced with difficulties and confronted with seemingly unsolvable problems.

It is then people begin to call upon latent powers they possess. William James, in his essay on "Vital Reserves," pointed out that underneath our daily store of strength and courage, all of us have reserves that are tapped only by emergency. We are all able, under the test, to surprise ourselves with an unsuspected capacity to be and do more.

It is that capacity which is our greatest asset. It is our hope in the present and for the future. It is ours to enjoy now.

The writer is acquainted with a man resident in one of our prairie cities who lost his position over a year ago. He has a bed-ridden wife not only to support but to care for. He is not an educated man, and prior to losing his position received only a small salary. Did he despair and call upon the Government to put him "on relief"? Not a bit of it! He called upon his own reserves of strength. Although he had no experience, he got a job painting a garage. This led to other small painting jobs. Then at Christmas time he got work soliciting orders on a commission basis. When spring came he hunted up garden work to do. Thus he keeps going. He is seldom idle because he is willing to take on any kind of a job, no matter how humble. And when you meet him he always has a new joke to tell. He goes whistling on his way, scorning to accept Government or municipal relief, always looking forward to better days that must inevitably come, and in the meantime keeping his head well above water. He is a bigger, better man than ever before; has maintained his self-respect and kept his courage, and, in the days to come, will command a better position than any he might have secured had "hard times" not descended upon him.

This is a very simple illustration of a very ordinary individual. Nevertheless he has and is displaying the spirit of a hero. Yet he possesses nothing that each and every person has not got, namely, a reserve of strength, of courage, of determination, to call upon in times of emergency. But the important thing is—he called those reserves into action. Too many of us fail to do this. We hesitate, we drift, we refuse to use the powers lying latent in us, with which we have been endowed. In a word, we have not faith in ourselves, and without that faith anything that others may do for us will fall far short. Such people will come out of the present time of difficulty weaker and less well equipped to take advantage of the opportunities which the future will offer to us.

Let us put ourselves to the test. We have been buffeted about; we may be gasping, but if we are strong of heart and keep on we will get our "second wind." A race is never lost until it is over; we always have a chance to win until the tape at the finishing line is definitely broken. Our success or failure depends, not on the other fellow, but on ourselves.

### Muskeg Has Its Use

Possibility It May Be Manufactured Into Wall Board

Muskeg, the mossy substance that covers thousands of miles of Canada's treeless north country, has at last found a use. An inquiry recently received by the Board of Trade at The Pas, Manitoba, may lead to a raincoat of muskeg being shipped to Brampton, Ontario, for use in the manufacture of wall board.

Sitting in the midst of millions of tons of muskeg, long believed valueless, officials of the board were amazed when they received the letter asking about the possibility of buying a dozen carloads or so. Negotiations are now under way for shipment and the Board of Trade is looking into the possibility of getting a factory to locate there and use the material.

### Right Up-To-Date

The new one-piece piece which France is coming shows how modern that country is "Marinac" as the girl on the coin is called has been given a job. Until this year she had long hair.

## All Her Children Were Troubled With Diarrhoea

Mr. J. J. Bicket, R.R. 1, Enderby, B.C., writes:—  
"Last Summer all my children were troubled with diarrhoea, and were so bad I did not know what to do. A friend told me to give them Dr. Fowler's Extract of Wild Strawberry, so I got a bottle, and after a couple of doses you should have seen the change. The children were soon well again, and I am very thankful to your wonderful remedy. I find it the only one that relieves so easily and quickly."

### High Tariff Walls

Action Of U.S. Proves a Severe Blow To Canadian Agriculture

The exports from Canada to the United States of principal commodities, such as are produced on Canadian farms, or manufactured directly from such farm products, during the month of May amounted in value to \$300,105, as compared with \$237,310 in May, 1930, and \$8,604,808 in May, 1921, according to the Dominion Bureau of Statistics.

The high tariff walls erected by the United States, culminating in the Hawley-Smoot tariff in June, 1930, were a severe blow to Canadian agriculture, making the export to that country of many commodities practically impossible.

During the eleven months ending May, 1932, the export of such commodities to the United States totalled \$8,632,428, as compared with \$14,078,830 in the same period of 1929-30, and \$171,492,982 in the eleven months ending May, 1921.

With a duty of 42 cents per bushel on wheat, the export of Canada's chief agricultural product to the United States declined from \$101,659,200 in eleven months of the crop year 1929-30, to \$2,400,774 in 1931-32. Three cents per pound on beef cattle has caused a drop from \$21,182,824 to \$617,745.

Three dollars per head on sheep brought the export down from \$1,693,213 to \$236. Butter at 14 cents per pound fell from \$2,289,221 to \$145,946, flaxseed at 65 cents per bushel from \$1,763,311 to \$573,709, potatoes at 75 cents per 100 pounds from \$6,557,031 in eleven months of 1929-30 to \$420,149, hay at \$5 per ton from \$2,359,295 to \$115,979, etc. Of course, lowered prices have also had some effect upon the values.

### Fast Ocean Travel

Canada Now Only Week-End Journey From England

Canada is now only a "week-end" journey from England, thanks to the record-breaking crossings of the Atlantic by the C.P.'s "Empress of Britain," says Viscount Rothermere, famous English newspaper magnate. Viscount Rothermere declares that the interval between the time the "Empress of Britain," passed Bishop's Rock lighthouse, off the Scilly Islands, and the time she reached the entrance to the Strait of Belle Isle, was only 72 hours and 55 minutes.

"The passage of the north Atlantic was made with only two nights spent out of sight of land," declared Viscount Rothermere's message, "after which the rest of the journey has been through smooth land-locked waters."

### Treachorous Police Dogs

Bringing These Animals Into Canada Looks Like Mistake

The Stratford Beacon-Herald in connection with a case of a dead six being bitten in Toronto by a police dog, observes that breeders of dogs are agreed that it was a mistake to bring this dog to Canada. It has not the background and tradition of the Collie, the bulldog, the setter, St. Bernard, Newfoundland or any of the other well-known breeds of dogs to which we are accustomed. The police dog is a wild animal, and treacherous in the sense that he cannot be trusted not to take a bite at any moment. The breeding of these dogs should be discouraged, especially for city life.

Internally and Externally It Is Good. The crowning property of Dr. Thomas' Electric Oil is that it can be used internally for many complaints, as well as externally. For sore throat, cough, whooping cough, pain in the chest, cold and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs little and there is no loss in having it at hand.

Evidently Not Known. The case came before a London coroner the other day of a man who "with an income of nearly £3,000 a year, had not a friend in the world." It cannot have been generally known that he had an income of nearly £3,000 a year.

With good management there is still money in farming. Fifty years ago an Ontario farmer paid \$500 for a farm and last week he sold it to a golf syndicate for \$550.

W. N. O. 1950

## Your Children

Christie's pure  
Arrowroots

For the tiniest babies . . . for older children . . . for growing boys and girls . . . there is nothing more delicious and nourishing than Christie's Arrowroots. No substitute is good enough.

## Christie's Arrowroots

### Miracle Recorded in Church

Mosaic Panel Depicts Basket Of Bread And Two Fishes

A fourth-century church, built during the reign of the Emperor Constantine the Great, has been uncovered near Tiberius, on the way to Capernaum. This church commemorates the miracle of the loaves and fishes, performed by Jesus on the shores of the Sea of Galilee, and the actual stone said to have figured in the Gospel narrative as the boulder on which He stood has also been found in the centre of the church, where it presumably lay beneath an altar. Behind the stone a wonderfully designed mosaic panel was found depicting in vivid black, red and yellow a basket, several loaves of bread, and two fishes. Although buried beneath dust and rubble for about 1,600 years, and on a stone-throw from the sea, the mosaic shows no signs of erosion, and the colors are well preserved.

### Good Service For Citizens

Toronto Health Department Furnishes Tablets To Purify Water

A notice published in Toronto papers says that free tablets for the purification of water can be obtained from the city health department by any citizen. These tablets are recommended for those going on picnic or on camping trips where there are chances of having to use water of questionable purity. The tablets will purify water and make it fit for drinking in a few minutes.

That is a useful service for any city to give its people. People who go away and who use water of which they know nothing at all are running risks, and a tablet which will eliminate this risk is a friendly thing and a good travelling companion.

Miller's Worm Powders are sweet and palatable to children, who show no hesitancy in taking them. They will certainly bring worm troubles to an end. They are a strengthening and stimulating medicine, correcting the disorders of digestion that the worms cause and imparting a healthy tone to the system most beneficial to development.

### Game Fish In North

Transferring Specified Trout Along Hudson Bay Railway Line

There is a possibility that game fish of the speckled trout variety, will be transported from the streams along the Hudson Bay Railway to the Clearwater Lake summer resort and other adjacent waters by airplane or tank cars, so the lakes may be stocked for sportsmen.

E. H. Stevenson, inspector of fishing, who is in Churchill, is at present engaged in making a survey of the brooks along the bay line. It is his intention to pick out suitable places for the capture and keeping of fish until transferred to other waters.

Douglas' Egyptian Liniment, always quick, always certain. Stops bleeding instantly. Cauterizes wounds and prevents blood poisoning. Splendid for muscular rheumatism.

### Using Planes In Stampede

Wild Horses To Be Rounded Up From Air

Klamath Falls, Ore., plans the mightiest wild horse drive—from the air. Three airplanes will dip low over the plateaus and passes, set the wild bands running, head them at the turns and finally stampede 2,000 of them. It is expected, into a gigantic trap corral in the lowlands. The finest stallions and mares, it is promised, will be allowed to escape again to the hills, but most of that vast catch will be slaughtered for chicken feed. The automobile could replace the horse in man's heart, but not even the auto could chase him off the map. Only thunder-birds swooping down from the sky can bring extermination to those wise, fleet, liberty-loving nautangs—can stampede them into poultry bait—Christian Science Monitor.

### An Imposing Monument

Prince Of Wales Will Dedicate War Memorial In France

One of the most imposing war memorials on French soil is that which is to be dedicated by the Prince of Wales at Thiepval, on the Somme, next March. This monument, which is nearing completion, will be composed of triumphal arches 140 feet high, and only five feet less in breadth. On the pillars will appear the engraved names of 73,367 British officers, N.C.O.'s and men.

Asthma Brings Misery, but Dr. J. D. Kellogg's Asthma Remedy will replace the misery with welcome relief. Inhaled as smoke or vapor it reaches the very innermost recesses of the bronchial passages and soothes them. Restriction passes and easy breathing returns. If you knew as well how this remedy would help you as do thousands of grateful users, there would be a package in your home tonight. Try it.

And now it is reported crocodiles do not cry. Next thing we know someone will muster enough courage to declare there is no such thing as a thing as a weeping willow.

It is said that more persons disappear from Paris than from any other city in the world. About 520 were reported missing every day in 1931.

## Increased Resort To London Of Canadian Borrowers Shows New Financial Trend

Successful flotation of two provincial bond issues in the London market is accepted by New York bankers as a forerunner of increased resort by Canadian borrowers to the London money market during the current period of financial strain and unsettled exchanges, says the New York Herald-Tribune.

The paper refers to the placing of British Columbia's \$1,000,000 of 5% issue in London in May, which was quickly oversubscribed at 90, and of \$1,000,000 Alberta 5% recently at 87 1/2.

"The new trend," says the paper, "is somewhat of a tribute to the London new issues market, which covered its losses last December." "It remains the opinion of almost all competent authorities that the Canadian dollar will be eventually re-established on a parity with that of the United States, notwithstanding the present discount of nearly 13 percent on Montreal funds in New York. The close interrelations of the United States and Canadian business interests, and the large aggregate of Canadian gold bonds, held in this country, are considered ample assurance of eventual exchange parity. Nor is it thought that such parity will be difficult to achieve or maintain in a normal world."

"It is accepted here that the Canadian borrowing in London had the tacit approval of the highest banking authorities in England."

"This assumption is justified, since the effect on the exchanges accords with impressions prevalent here in regard to London financial policy. All exchange transactions between Montreal and London are mediated by New York. Canadian borrowing in London means, therefore, that additional pressure will be exerted to depress the British currency unit in terms of the United States dollar, while a favorable effect will be exerted on the Canadian unit in terms of the dollar."

"That London is averse to any substantial rise in sterling has been shown by the establishment of the stabilization fund. The effect of Canadian borrowing in London coincides with the operation of that fund and it is therefore assumed that encouragement will be given the flotation of Canadian bond issues in London."

### To Protect Industry

#### Ask For Stiffening Of "Empire-Content" Regulations In Britain

British Conservatives want a stiffening of the "Empire-Content" regulations which stipulate the percentage of Empire labor or materials that must be contained in goods entering under the Imperial preferences.

The central council of the National Union of Conservative Associations, meeting in London, with 500 delegates present, unanimously passed a resolution demanding the government take steps to amend the regulations, which at present call for an Empire content of 25 per cent.

The resolution complained that at present United States manufacturers are able to use Canada's and the Irish Free State as corridors for the export into Britain of goods of United States origin, thus evading the general duties and defeating the object for which they were imposed.

"I believe all men are stupid."  
"Oh, no. Some remain inebriated!"  
—Helen Hunter, Madrid.

W. N. U. 2450

### Sounds Reasonable

#### Establishing City Man On Farm Might Not Pay

A prominent citizen of Pennsylvania, realizing that unemployed city workers have no means to establish homesteads in the country, proposes that the State should finance them in the purchase of farms, stocking them with horses, cows, chickens and pigs, and supplying them with tools and seed. That kind of aid might be welcome to a genuine "back-to-the-lander" who had been brought up in the country, but how can it benefit the man who has never known life outside a city? He couldn't tell a cow's flank, he has the vaguest idea of none at all as to the proper feeding and care of swine. Even the comparatively simple procedure of keeping a flock of poultry in good fettle is Greek to him. You might as well bring a discouraged farmer to the city and expect him to make a success of running a beauty-parlor or a high-class specialty shop.

A CHARMING LITTLE MODEL.  
THIS YOUNG, Dainty AND  
VERSATILE

It can be carried out in a great many different fashions. It all depends upon whether young daughter wishes to wear it for parties, "best" or everyday occasions.

For parties, taffeta, crepe de chine or chiffon is dashing in pale blue, pink or daffodil yellow.

For simple "best," a crepe de chine print in light navy blue and white is mainly a success. The yoke that merges into caplet sleeves is plain navy crepe. It's most practical.

Style No. 290 is designed for sizes 8, 10, 12 and 14 years. Size 8 requires 1 1/2 yards of 35-inch material with 1/4 yard of 35-inch contrasting.

Red and white polka-dotted tulle with plain white, Nile green linen with yellow and ochre and white checked tissue gingham with plum orchid gingham are striking combinations. Truly French.

Price of pattern 32 cents in stamps or coin (coin is preferred). Wrap coin carefully.

## GEORGE E. CARTER WINS PROMOTION

Succeeds George A. Walton  
as General Passenger  
Agent C.P.R.

George E. Carter, Assistant General Passenger Agent, Canadian Pacific Railway is appointed General Passenger Agent Eastern Lines, with headquarters at Montreal effective July 1st, according to an announcement by R. G. McNeill, Assistant Traffic Manager. He succeeds the late George A. Walton, who died on the "Empress of Australia," at sea, on May 18. The position of Assistant General Passenger Agent was held by Mr. Carter will not be filled. This decision was reached in view of the need of economy during current business conditions, and reduces the number of Assistant General Passenger Agents to two.

Mr. Carter's promotion is one of the highest positions in the gift of the Passenger Department. It follows a career already marked by steady advancement. Mr. Carter entered the service of the Canadian Pacific at Saint John, N.B. on September 25, 1914. Shortly thereafter he enlisted for Overseas Service and was wounded on the Western front with the first Canadian Machine Gun Battalion. He subsequently became a member of the world famous Princess Pals, the character of his service with that unit winning him a commission in the Imperial Army, from which he afterwards transferred to the Canadian Corps.

Returning from Overseas at the close of the War, he re-entered the Passenger Department of the Canadian Pacific at Saint John, N.B., and steadily worked his way upward through the ranks. He was transferred to posts of increasing responsibility at Quebec, and in turn was made Chief Clerk in the New York and Montreal offices of the Passenger Department. Mr. Carter also made a special instructional trip to Europe in cooperation with the Canadian Pacific Steamships.

He was made District Passenger Agent at Saint John on December 10, 1928, and Assistant General Passenger Agent in Montreal on May 1st, 1930. He is a member of the Traffic Club of Montreal, and of the Kiwanis Club.

The United States imported 281,000 pounds of garlic last year.

## Eminent French Professor Declares There Is No Such Thing As The Gulf Stream

### Hundred Acres Of Roses

#### Two New Varieties Yearly In Bohemia Gardener's Record

Blatina, in southwest Bohemia, was but little known to the outside world in pre-war days. Only the antiquarian interest in its late Gothic church, or the tourist informed of its delightful old castle set in the midst of a great and lovely park, would think it worth while to drop off there before passing on to the larger and histrically more interesting towns of Pisek and Strakonice. But today it has become the end of an annual summer pilgrimage of nature lovers and others from all parts of central Europe. For there has been established by Jan Boehm a plant of over one hundred acres of roses.

To the horticulturalist, Blatina is a constant source of reference, for Jan Boehm is a continuous experimenter, and his results are eagerly followed by experts in this part of Europe. He pieces upon the market two new roses each year. Some of his recent introductions include the Masevsky Jubilee rose, the "Bozema Nemova," named after a famous Czech novelist, of the nineteenth century and which is described as "a rose without a thorn," a "Grand-Panache" and a "Kraena Ushavanka" rose of two colors.

In addition to his own specimens, Boehm grows all kinds of roses, German, French, English and Dutch. The fact that Blatina lies about 1,200 feet above sea level and is exposed to the sharp winds of the Bohemian Forest would have suggested to a less daring man that this was an impossible spot in which to cultivate roses. What has actually happened is that Boehm has produced roses which are of a hardy sort, insured to cold and well able to stand rough climate. Christian Science Monitor.

Exports of beef from Alberta in 1931 totalled 100,000,000 pounds, according to the annual report of the Provincial Livestock Commissioner.

Diamonds never occur in mass form, always being found in single crystals.

Professor Georges Le Danois of the French Sea Fisheries Bureau says "there is no such thing as the Gulf Stream." This, says the New York Sun, is his ultimatum. He hopes "that this categorical statement will put an end to the conjectures inspired by reports concerning the inconsistency of the river in the North Atlantic."

The suppression of the Gulf Stream by the eminent French oceanographer is a hard blow to romance. Nothing like it has been reported since gina science abolished the Sargasso Sea, the adventure tales and condemned to death all those interesting colonies of hopelessly poor voyagers that were held captive in its entangling weed. The Sargasso Sea had a flora and a fauna of its own, each as rich as the discoverer's imagination; its human population was as diversified as the circumstances set by the story teller required.

The Sun reminds us that the Gulf Stream plays a different but not less interesting part in story. It is responsible for the cold, wet seasons that afflict the eastern coast of the United States and the northwestern coast of Europe. When strange fish appear, the Gulf Stream brings them; when a famous fish disappears, the Gulf Stream takes them away. Outside the Hydrographic Office, a strangely perverse institution so unenterprising that it refuses to be guided by amateurs' reports—the principal function of the Gulf Stream is to change its course. Not a season passes in which its diversions are not recorded everywhere except on the official charts.

It is a fortunate thing that Professor Le Danois did not revoke the Gulf Stream while Benjamin Franklin was taking them away. Outside the Hydrographic Office, a strangely perverse institution so unenterprising that it refuses to be guided by amateurs' reports—the principal function of the Gulf Stream is to change its course. Not a season passes in which its diversions are not recorded everywhere except on the official charts.

### Tariff Pleasentries

#### U.S. Attitude Puts An End To Possibility Of Neighborly Trade

Colonel W. L. McGregor, president of the Canadian Chamber of Commerce, got a few things off his chest and on to the necks of the American Chamber of Commerce in convention assembled at San Francisco. Referring to tariff pleasentries between Canada and the United States, he says right out that the Americans started the game. The Smoot-Hawley Act is described as putting an end to fifty years of Canadian effort to trade with the United States. Furthermore, the newly threatened restrictions upon Canadian lumber and copper exports come in for rough handling. It is not much good trying to do business with a people who appear unwilling to buy from us. Although they sell us one-quarter of their exports, quoth the colonel. In the classic phrase, he is not arguing with the Americans; he is just telling them. Montreal Star.

Bobby: "Daddy, a boy at school told me I looked just like you."

Dad (proudly): "And what did you say?"

Bobby: "Nothin'. He was bigger'n me."

"Oh, I have forgotten my handkerchief! John, just run up and fetch it before the train comes!" —Sondags-Ause-Strik, Stockholm.

### CANADIAN-UNITED STATES PEACE PARK DEDICATED

These photographs were taken when the Waterton-Glacier International Peace Park was dedicated under authority of the Canadian Government and United States Congress as a monument to 117 years of enduring peace and good will between the two nations. Sir Charles A. Mander of England delivered the dedicatory address at the colorful ceremony and he is seen at the top, center, clasping hands of E. T. Sweeney (left), superintendent of Glacier National Park, and H. Knight (right), superintendent of Waterton Lakes National Park. The Peace Park idea originated with the Rotary Club of Cardston, Alberta, and was sponsored by the Rotary Clubs of Canada and the United States. The lower photograph shows Chief Two Guns White calf adopting Lady Mander into the Blackfoot tribe as Princess Shining Star Wamun (Ko-Ski-Ki-Na-Bo-Ya-Kee), following the ceremonies of dedication.

## Trim the Edges of Grainfields.

There are practical as well as aesthetic reasons for trimming the edges of grainfields. Weeds often grow along them, especially if there have been little end-skips in the seeding. The weeds on the edges grow strong and ripen many seeds, which are carried to other parts of the field by reaping and threshing operations. Trimming the edges of the fields about July helps to keep farms clean.

A trimmed field looks better than a ragged one. Squaring off the ends makes about as much difference in the appearance of a crop as a shave and a haircut do in the appearance of a man. It gives an air of primness, and the crop looks taller.

Any farmer worthy of the name is proud of a good-looking crop. The prouder he is the better he will do his work.

It doesn't take long to run around each field with the mower. It will be time well spent. Character is judged and formed by such little things.

W. D. Albright, Supt.,  
Experimental Sub-station,  
Beaverbridge, Alberta.

## All Vehicles Must Carry Lights.

An amendment to the Vehicles Act, which came into force on July 1st provides that every vehicle, other than a motor car shall, while in operation on a public highway, carry a red light on the rear, visible for 200 ft. under normal conditions, or a red reflecting device so placed as to be illuminated by the lights of an approaching vehicle. This red light must be carried during the period from sunset to one hour before sunrise and at all times when necessary owing to atmospheric conditions.

## Stirring Drama Of Mother Love

Heralded as one of the outstanding talking pictures of the year, "The Sin of Madelon Claudet," a Metro-Goldwyn-Mayer filmization of the Edward Knoblock stage success, "The Lullaby," will show at the Opera House Monday next for one night only.

The story is one of tremendous emotional sweep depicting the melodramatic career of a woman who sinks to the lowest depths for the sake of her child. The picture is said to be marked with the same stirring qualities and drama which characterized "Meditation" and "Madame X," the nature of the plot leaving an adroit blending of romance and the extremes of comedy and tragedy.

Helen Hayes, the distinguished actress who scored on Broadway in "Coquette" and "Petitpouce," makes her screen debut in the production and the cast includes: Lewis Stone, Neil Hamilton, Cliff Edwards, Jean Hersholt, Marie Prevost, Robert Young, Alvin Hale, Karen Morley, Charles Winninger, Halliwell Hobbes, Lennox Pawle, and Russ Powell.

## LOCAL & GENERAL

Miss Grace Brubacher is spending her holidays at her home here.

Miss Annie Plechaty has taken a position at Sylvan Lake.

The Board of Stewards of Zion Evangelical Church will meet after the service on Tuesday evening, Aug. 9th.

There will be special evangelistic services at Zion Evangelical Church every evening next week except Saturday, at 8 o'clock.

Mr. A. Bishop is feeling kind of proud these days. He informs us that he has been made a grandfather twice during the last month.

Mr. and Mrs. Chas. Radcliffe, of Kimberley, B.C. are visiting with Mrs. Radcliffe's parents, Mr. and Mrs. M. B. Clemen.

Mr. and Mrs. John Flury, Miss Rae Clements and Mr. C. E. Ford are making a vacation trip to Jasper Park.

Hail did considerable damage to a strip about three-quarters of a mile wide, south of Harmattan. Some of the crops were reported to be damaged 100%.

Frank Kaufman took a softball team out to Rosebud school Monday and got trimmed after a hot game. Mrs. Kaufman says that Bill Gillette was the outstanding star of the game.

Misses Ruth Korch and Hazel Hall returned Monday from a week's camping near Bergen. They say they had a fine time in spite of the mosquitoes and other drawbacks.

Mr. and Mrs. Chas. Brownworth and family, of Mullin, Idaho are visiting Mr. John Tittsworth. Mrs. Brownworth is Mrs. Tittsworth's daughter.

The Westcott Ladies Aid will hold a lawn social at the home of Mrs. J. Hughes on Wednesday, August 3rd at 6:30 p.m. Refreshments 10 cents per plate.

Jim Kirby, Jack McCloy, Tommy Johnson and Jimmy Halton took the Hulton Cadillac to Fallen Timber on Sunday and report a fair catch.

Buster Kenton in his funniest picture, "Sidelwinks of New York," with Anita Page and Cliff Edwards will be the feature attraction at the Opera House Thursday next, Aug. 4.

"The Sin of Madelon Claudet," at the Opera House Monday next, one night only. Features Helen Hayes, Lewis Stone, Neil Hamilton, Cliff Edwards, Jean Hersholt and Marie Prevost—a star cast.

Forty farmers attended a dairy pool meeting held at Rosebud school last week. Mr. Doris Wilson occupied the chair, and Mr. Brockner, of Calgary gave an outline of the workings of the pool.

We have been requested to ask Jim McGhee and Bill McCoy if it is possible for two men in the back-end of a truck to turn three complete southerly and a star in the track. The third man says he was judge of play.

Thirty happy youngsters returned Monday after spending a week camping at the Evangelical Church Young People's Camp at Clarke's Bridge on the Little Red Deer. They all agree that this was the best camp ever. Rev. and Mrs. H. J. Wood had charge of the camp.

Ward Wyman, Bob Gooder and Charlie Cook played with the Olds team Monday evening in the first game of the provincial playdowns, against Strathmore at Olds. Olds lost 7-6. A home run in the ninth, with one man on first and two out spelled defeat for Olds.

BORN:  
On Tuesday, July 19th at the home of Mrs. J. W. Halton, to Mr. and Mrs. Chas. Radcliffe, of Kimberley, B.C., a son.

To Mr. and Mrs. W. A. Bishop, on Sunday, July 24th, a son.

## WEEKLY JOKE

She: "Oh, George it is so cold. I'd like to have something around me."  
He: "What would you care to have?"  
She: "Oh, anything—"  
And he brought a shawl.

## Short Winter Wheat Crop Expected In United States

Definite figures indicating a big shortage in the winter wheat crop of the United States were received at the Regina office of the Minneapolis-Moline Flouring Co. of Canada, Ltd. The 1932 crop, according to general estimates, will be only slightly more than one-third of the actual yield of 1931.

According to Mr. Aspeland, the divisional sales manager of the Minneapolis-Moline Co., the estimated yield of winter wheat in the four principal producing states this year compares with the actual 1931 yield as follows:

Actual 1931 Yield, in Bushels:	
Kansas	239,742,000
Nebraska	57,431,000
Oklahoma	74,919,000
Texas	57,433,000
Total	429,525,000
Forecast Yield, June 1, 1932, Bushels:	
Kansas	72,254,000
Nebraska	18,250,000
Oklahoma	32,526,000
Texas	31,650,000
Total	154,680,000

Interviewed at his Regina office recently, Mr. Aspeland said, "All reports we have received show that the above is just about accurate, and when you compare this with the prospects for a very good crop in Canada this year, it does seem that it will be the turn for the Canadians to have some good luck."

"I think our chances are very good to get a better price also. We believe this so sincerely that we've just announced a plan for 77-Cent No. 1 Northern Wheat, Winnipeg market, and are offering very attractive discounts during 1932 on most of our machinery, until this figure is reached. Frankly, our reason for doing this is that we believe that grain prices will go up, and we think that many farmers should now have machinery for handling the coming crop, which they would buy if assured of a reasonable price for their grain. Our plan allows the purchase of machinery immediately on special discounts, until the price of No. 1 Northern Wheat reaches the 77-Cent figure mentioned above. If we are wrong and grain prices do not climb we stand a loss."

"It seems to us that what we all need, more than anything else, is confidence in the future and an in-

crease in the prices of farm produce. We have tried to show our confidence by announcing this plan and offering these reduced machinery prices. If this plan puts our farmer friends in a position to get the machinery they need to handle the coming crop, we will have done all that we expect."

Fisher & Edwards inform us that they, as dealers for the Minneapolis-Moline line, have complete information on the working of this plan, which they describe as very simple, liberal, and easily understood. They invite farmers interested in any new machinery to see them about the discounts they are now able to offer on Minneapolis-Moline Machinery.

### ITEMS OF INTEREST

When 112 boy craftsmen from all parts of Canada and the U.S. gather in Detroit next month for the 2nd annual convention of the Fisher Boy Craftsmen's Guild, Alberta will be represented by H. Ivan Kounain, 4, Harvey Block, Calgary, and F. J. Meester, 3818, 73rd Ave., Edmonton, who carried off the top honors at the district judging recently concluded in Regina. Each of the two will receive not only the trip but \$100 in gold, and his model will be re-judged in the international competition for 4 University scholarships of 4 years each. Second-place awards for the district went to Eric Marshall, of Daysland, and to J. E. Roe, 10842, 122nd St., Edmonton. Each of these boys will receive \$100 in gold and his model will be re-judged in the international competition.

Didsbury Lodge No. 18, I.O.O.F.

Meets the 1st and 3rd Thursday in each month.

Visiting brothers are welcome.

## Satisfied Canadian Owners have established CHEVROLET LEADERSHIP!

A hundred thousand owners of low-priced cars throughout Canada were invited recently to tell what they thought was Chevrolet's most important story. Like a recurrent theme through the thousands of entries received was the conviction that Chevrolet leadership is based on the goodwill of the men and women who have tested the Chevrolet Six in millions of miles of driving.

The Chevrolet Six you buy today is a proved car; proved on the hard testing ground of a nation's roads and byways to the satisfaction of thousands of your fellow-Canadians. It has won acknowledgment today as the Great Canadian Value, just as this proud title has been won by each succeeding Chevrolet since the first of the line came out of the factory at Oshawa, seventeen years ago.

No wonder, then, that since January 1st, Canadians have purchased more Chevrolets than any other car, regardless of price. Wise motorists have said in no uncertain way that they want six-cylinder smoothness, free-wheeling, synchro-mesh gear-shifting, Fisher bodies, four parallel-mounted springs—and the other Chevrolet features without which no 1932 car can possibly be called complete!

## Canoe Trips in Canada Lakes and Rivers Provide Numerous Attractions

Opportunities for an Enjoyable Vacation Almost Unlimited

Kind of trip to be made, whether one requiring much effort and experience, or one quite free from rapids and portages, the canoeist has only to select his route.

### Easy of Access

Although railways and the automobile have provided a means of rapid transport, there are countless places in the quiet of the forest, out of reach of either. It is such places, approachable only by canoe, that invite the adventurer to partake of the wonders of nature. The railways and the development of good roads have however made the majority of canoe routes in Canada easily accessible, and one need not travel far from the majority of Canadian cities before reaching the embarkment point of an enjoyable trip.

### Forest Beauty

In certain parts one may follow the streams for a long summer outing and never see a village or dwelling, yet civilization lies so close that return is easily possible. Waterfalls, rapids, large and small, lakes of singular beauty hidden deep in the forest, and islands covered with pine and spruce trees are among the interesting features encountered en route. In some places one may travel hundreds of miles without meeting obstacles of any kind.

There is a remarkable contrast between the conventionalism of modern life and the full naturalness of life in the great forest, where one may enjoy the beauty of natural surroundings. A strange appeal of excitement comes to one while following the routes of the historic explorers and conquistadors.

amid the constant change of beautiful scenery.

### Fish and Game in Abundance

Canadian lakes and rivers are renowned for the variety and abundance of their fish. Brook and lake trout are numerous, the latter often weighing from fifteen to thirty pounds while other species of fish are plentiful. Eastern Canada is well provided with waterways, well suited to travel by canoe. Canal systems, rivers large and small, rapids, falls, lakes, stillwaters and all the requirements for an enjoyable canoe trip, await the devotee of the paddle. Whether it be a cruise through a well settled region, or an adventurous journey through the wilderness, the canoeist will find an almost unlimited number of lakes and streams.

The waterways of western Canada, in days gone by, assisted materially in unraveling the mystery of the great country between lake Superior and the Pacific Ocean. Radiating from lake Winnipeg, six routes of romantic interest. Nestling among the mountains of the coast are many beautiful lakes, also, through which wind through the hills, where sport for the angler and hunter may be found.

### Free Information

The National Development Bureau of the Department of the Interior at Ottawa, has prepared a series of four booklets entitled "Canoe Trips," copies of which may be had by our readers free of charge. The series covers the provinces of Quebec, Ontario and Western Canada. Further detailed information is available to those who require specific data on any particular trip.

THE requirements for a successful and satisfactory trip by canoe, suitable water, picturesque country and an excellent summer climate, can be found almost anywhere in Canada. The innumerable lakes and rivers make the choice of trips almost unlimited. One can travel for hundreds of miles on any of the great rivers, journeying from lake to lake and portaging where rapids impede or heighten the pleasure. Leaving stranded upon the

## WORLD HAPPENINGS BRIEFLY TOLD

The United States celebrated the 150th anniversary of Independence Day at a cost of more than 240 lives.

The \$210,000,000 compromise unemployment relief bill was finally approved by the United States House representatives and senate conference.

Limited sockeye salmon packs for 1932 in British Columbia waters are estimated in an advance report prepared for Hon. S. L. Howe, Provincial Fisheries Commissioner.

A shepherd and several hundred sheep were frozen to death on Mount Olympus near Bursa, Turkey, during a terrific snowstorm which followed a recent heat wave.

By means of X-ray doctors of the Canadian Medical Association were able to read blind type upside down with their eyes closed in an experiment.

Ontario and Manitoba joined hands in an unique Dominion Day celebration. The natal day of the Dominion of Canada was chosen for the formal opening of the first highway to connect the two provinces.

After several months of investigation, F. A. McGraw, registrar under the Combines Act, has reported the existence of a price-fixing committee among the fruit basket manufacturers of Ontario.

Mrs. Katharine Medill McCormick, widow of the diplomat, Robert S. McCormick, died of a heart attack in Versailles, France. She was 79. She was the mother of Col. Robert R. McCormick, editor and publisher of the Chicago Tribune.

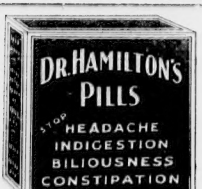

Pirate treasure \$600,000,000 in pieces of eight, gold and silver bars, and church robes has been discovered on Cores Isle by an expedition which left Vancouver, B.C., last February, Capt. R. D. Adams, a member of the party, reported.

Gold that led Jack Hornby and two young Englishmen to death by starvation in the Thelon River country in 1927 is beckoning to other prospectors. This summer a party will go into the barren wastes in search of Hornby's secret strike.

A difficult operation was reported at the homeopathic hospital, Montreal, where an eighty-year-old boy was taken with a punctured heart. Dr. J. Harry Candion successfully drew the right ventricle of the heart. The boy, Robert Shepherd, fell upon his penknife while running the blade penetrating the heart.

## Old Roman Coins

Roman coins dated A.D. 329 to A.D. 324 were unearthed at the river-side home on the Thames of Viscount Craigavon, premier of Northern Ireland. The coins were found by a workman digging on what is believed to be the site of an old Roman road.

W. N. U. 1930

## Shall Our Monetary System Be Changed (Continued)

An Analysis of Several of the Proposals Made

By Major Stranges

(6) That Central Banks should exercise a greater control over credit so that in times of prosperity credit would be curtailed in order to prevent over-speculation and over-expansion of buying and production, and so that in periods of adversity credits would be more freely available.

(NOTE—Some critics consider that this suggestion involves over-straining of the workings of the quantity theory of money. In a subsequent article a brief explanation of the quantity theory of money will be attempted. Other critics ask why would be wise enough to decide when a period of over-expansion had arrived, and when prices are declining and persons are fearful of making financial commitments for a future which they cannot foresee—who, it is asked, would be brave enough to borrow and use the credit even though it were available?)

(7) That the Canadian paper dollar shall be based upon "units of labour" instead of gold. This is exactly the proposal made by Karl Marx in 1848, although Marx saw clearly that there would be difficulty in deciding how the "socially necessary" unit of labour should be computed.

(NOTE—Many socialists and Communists advocate this today. No competent economist, as far as we are concerned, is willing to regard such a system of price determination as even remotely workable or possible.)

(8) That the purchasing power of the Canadian paper dollar shall be based upon an index number of wholesale commodities instead of gold and that debts should be repayable with dollars of the same purchasing power that they had when the debts were incurred. Which index number would be chosen, and which commodities should be included in the makeup of the average, and how compensations of price would be made to correct over-production or deficiency in any one commodity, or how a surplus of any one commodity would be governed, is not clearly explained.

(NOTE—This is the method advocated by some termed "managed currency." Whether any set of human beings have had sufficient experience with the management of money, or sufficient wisdom, to control either inflation or deflation of money without any solid metal as an anchor, is questioned by many students.)

(9) That bimetalism shall be instituted, using gold and silver as alternatives, which shall be exchangeable one for the other, or for paper currency, at a ratio set by law.

(NOTE—Every attempt in history that has been made to set up bimetalism has ended in failure. Bimetalism has been inevitably to function, resulting in the most prized metal of the two being driven out of circulation and hoarded, so that eventually only one of the two metals is left to serve as a standard and medium of exchange.)

(10) That symmetricalism should be set up, which means that both gold and silver bars might be used as legal tender, but tied together in definite proportions in metal bars, shall be used as the standard, and that paper currency shall be exchangeable for neither gold nor silver, but only for one of the metal units of the two. This was first suggested by the eminent economist, Professor Marshall, who felt that the weakness of the quantity theory of money would bring about an increased commodity price level. If increasing quantities of monetary metal as a base could be put into use.

(NOTE—The objection to this scheme again is that it would be difficult for nations owning various amounts of gold to decide on the relative proportions of gold and silver to be used. Also the fear is expressed that the bars might be melted down by individuals or nations and the most prized metal of the two would be hoarded.)

(11) That the silver coins in use throughout the world should contain a greater percentage of silver. Also that silver bars might be used as a base for paper money of small denominations, but of generous amounts, which could be exchangeable for silver only and not for gold. This is claimed would raise the price of silver and help the buying power of Eastern countries on the silver standard. It is argued, however, by critics that any enhancement of the price of silver would seriously harm producers and dealers in these Eastern countries, and that the benefits to Western people might not be as large as assumed by some.

(12) That the basing of all currency and credit shall be nationalized and that all finance and banking shall be operated and managed by Government instead of by private institutions.

(NOTE—In criticizing this proposal it is made that the Government of any country so far has ever shown much capacity for successfully managing any large matters of finance or business, and that efforts to distribute credit "at cost" by Governments to the people usually end in high cost

"Best for You and Safely for"

and in disastrous losses which have to be borne by the taxpayers).

(13) That the monetary system and other financial and banking methods with gold as a basis, should be left as they are without interference for chain proponents of this, the so-called crisis of money and the falling of prices has been the result of and not the cause of the present depression, which, these claim, have been brought about by other factors, many of which may not even be understood, but as in the past all originating in the War and its aftermath of prejudice, hates and extreme nationalism.

These orthodox supporters of the gold standard suggest that if international arrangements can be made that will restore confidence between one nation and another, so that some of the high tariff walls might be lowered, which would result in a freer exchange of goods and commodities, and if reparations and War debts can either be modified or be paid mainly in goods and not in money, there is sufficient gold in the world for all practical purposes and to support at least the present level of prices. Nations are rapidly learning, it is pointed out, the simple financial principle that creditor countries should not either lend their surplus gold abroad, pay foreign bills in specie, or take their gold and spend it in foreign countries.

These economists draw attention also to the fact that as commodities become cheaper, gold becomes dearer, which allows of the working of lower grade gold ore bodies, which will increase the production of gold. Dearer gold will also bring out much that has been hoarded for centuries. These increases in the amount of gold will automatically, according to the quantity theory of money, result in higher or price level of goods and commodities. At the very worst, state these people, deflation will continue until all goods, commodities, interest on money, and all things, have an equivalent value in gold. Debts that cannot be paid will either be cancelled or written down, taxes will have to be reduced, and the value of money start will be made, but on a lower general price level which will require, of course, much less gold to support it.

In the consideration of all these suggestions for monetary reform, two important facts must be borne in mind. One is that Canada is bound by contract to pay each year in gold its share of the \$200,000,000 interest and in repayments of debts. No inflation of the Canadian dollar will reduce this obligation. The other is that Canada is an exporting nation; that the goods and commodities she sells are exported to other nations in foreign currencies. No amount of inflation of the Canadian dollar will ever increase the value of her exports, and if money received from abroad for these exports is reduced.

(NOTE—The Research Department of the Seale Grant Company has written two articles on Bimetalism and on the Gold Standard. There are available to any who may be interested.)

## Waiting Time Is Over

Prosperity Must Be Met Half Way

Opinion of Barnham

Frank J. D. Barnham, that Canadian optimist who confesses to having weathered three or four panics in his time, has no hesitation in saying that prosperity is now simply waiting for people to go out and meet it half way. "Don't keep on waiting; if you wait, we shall never meet," is the word he broadcasts in a communication to the press. "If all those who have money, and there are a sufficient number who have, would go out and buy freely as they did in 1929, the depression would soon be a thing of the past. Buy, build, repair and stock up now, and by so doing save thirty to fifty per cent. in the world from the man who has been recently buying forest tracts in this country in order to save them for posterity. 'And then advertise,' he adds.

A machine which makes griddle cakes has costed fifty girls in Childs restaurants in New York.

Receipts of government railways in Japan last year were nearly \$11,000,000.

## Contract Bridge

By Hamlin B. Hatch, Carendish Club, Toronto

The Limitations Of Distributional Valuations In Contract.—As previously stated, quantitative trick taking probabilities of any two combined hands in Contract are determined by three kinds of tricks, i.e., Honor tricks, long suit tricks and short suit or ruffing tricks. Valuing the combined twenty-six cards of any particular deal by the valuation table given in a previous article is, as a rule, very accurate up to a total of ten tricks. Beyond ten tricks, it is important that the player realizes that there may be a duplication of values in the hand. By this is meant that high card tricks and ruffing tricks as figured independently in the two hands, may overlap, and that, because of this overlapping, short suit ruffing tricks taking probabilities of the two hands may add up to anywhere from twelve to fifteen tricks when in the actual play only from ten to eleven tricks will be taken. The axiom follows then, that, in high contracts, it becomes necessary, as a rule, in order that the high contracts may be fulfilled, the combined hands be fairly strongly fortified with aces and kings. Therefore, in high contract bidding, it becomes important that the partnership endeavour to ascertain from each other's responses whether or not there is value duplication in the hands. Occasionally hands occur which will make twelve or thirteen tricks when there is only from two to four high honor cards present in the combined hands. This is so only when value duplication is entirely absent.

High contract bidding carries any partnership into the realms of slams. There is one definite, never to be departed from, rule for slam bidding. The rule is, that it is definitely essential for the slams the combined hands have in case of little slam control of at least three suits, and in grand slams, control of all four suits. By control is meant the ability to take the first round trick of the suit controlled. So that in order to bid and make little slam the two hands must have either three aces, or two aces and a void suit, or one ace and two void suits. Generally it may be said that slams are most usually made in hands which are unbalanced and in which the unbalanced does not involve value duplication. Balanced hands on account of the fact that there are few if any, long suit tricks and ruffing tricks, do not make for the success of high contracts and slams. The tricks taken in balanced hands, especially in hands of the 4, 4, 3, 2, and 4, 3, 3, 3, types are practically all honor card tricks. High contracts in balanced hands therefore, can only be made when the two hands are replete with aces and kings, queens and jacks. As a rule, then, it is well for the contract player to realize, that slam contracts on balanced hands should only occasionally be contracted for and then only when the bidding used to arrive at the slam, does not indicate too many high cards to make the success of the slam bid fairly certain. On the other hand, slam contracts may be bid on unbalanced hands much more frequently, as the additional factors of long suit and short suit tricks probabilities make slams much more probable than in hands where these additional factors are lacking.

The hand following is given as an example of arriving at a high contract which is impossible of fulfillment on account of value duplication.

South		North	
Spades	K, Q, x, x	Hearts	none
Diamonds	A, K, x, x, x	Clubs	K, x, x, x
West		East	
Spades	x, x, x	Spades	x, x, x
Hearts	x, x, x, x	Hearts	Q, J, x, x, x
Diamonds	Q, x, x, x	Diamonds	10, x, x, x
Clubs	x, x	Clubs	A, x
South		North	
Spades	K, Q, x, x	Hearts	A, K, x, x
Diamonds	none	Diamonds	none
Clubs	Q, x, x, x	Clubs	Q, x, x, x
South Is the Dealer		The Bidding	
South	West	North	East
1 Spade	Pass	3 Diamonds	Pass
3 Hearts	Pass	4 Clubs	Pass
5 Clubs	Pass	6 Spades	Pass
Pass	Pass	Pass	Pass

The combined hands figure fifteen taking tricks and in actual play will only take eleven tricks. The duplication comes in this case in two in-

## Sick from Heat

"Baby's Own Tablets are excellent for children's summer complaints," writes Mrs. M. E. Conron, Brantford, Ont. "Best of all children's remedies for summer complaint," writes Mrs. Geo. Walker, Thomasburg. Equally effective for colic, fever, cholera, constipation. Pleasant to take and absolutely SAFE. 25¢ a package. 24

stances—First the void heart in the North Hand, and the Ace King of Hearts in the South Hand. The void Diamond in the South Hand, and the Ace King of Diamonds in the North Hand, the hand should not be bid slams as this duplication of values was shown in the bidding.

## Dream Becomes Reality

Cargo From Britain Coming To Northern Seaport

Western Canadians were convinced that their dream of many years was becoming a reality, declared W. H. Harling, steamship agent, upon his return from the prairies, discussing the port of Churchill, on Hudson Bay.

Soon the first inbound cargo to reach the new port would arrive on board the S.S. Pennyworth, he said. Liqueur for Saskatchewan and Manitoba, barbed wire, netting, toys and fancy goods, chinaware, paint, confectionery, dry goods, binder twine, stationery, school and laboratory equipment, boots and shoes and a number of other commodities will make up the ship's cargo.

## Salmon From Hudson Bay

Tral Shipment From West's Northern Seaport To Be Made Soon

The first samples of fresh Hudson Bay salmon and trout will shortly be shipped to the "outside," according to John Insebring, fisherman, who has received orders for trial shipments. One will go to Capt. Harvey L. Weber, president of Transport Limited, The Pas, Manitoba, and the other will go to H. S. Johnston, representative of the Booth Fisheries, Ltd., The Pas, Manitoba. Insebring also has an order from the Guest Fish Company, Winnipeg, for a sample order of Arctic fish.

## Subsidy Had Expired

Householders In Ireland Must Bear Expense Of Building

People who recently built houses in Omagh, Ireland, have failed in their efforts to get subsidies from the city and the government, and must pay for all the work and materials themselves. At a recent council meeting it was disclosed that money had started the house under the impression that they would receive aid from both the municipality and the country. It was then revealed that the subsidy had expired March 31, 1931.

## Emancipation For The Deaf

Special emancipation for deaf persons, opportunities to obtain education and employment for which they are qualified were demanded by Edwin G. Peterson, Saskatchewan, superintendent of the Saskatchewan School for the Deaf, at the triennial convention of the Western Canada Association of the Deaf, held in Winnipeg.

## Bogers Stands Corrected

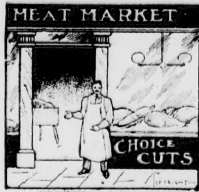

Will Rogers has been telling American bankers that he had told Canada and find out why only one Canadian bank has failed in ten years. The record is even better than that. There has been only one failure since 1914—one failure in nearly eighteen years.

Elevator.

## UNITED GRAIN GROWERS LTD

ELEVATORS AT DIDSBURY and ALLINGHAM

## Burnside Notes.

Mr. R. Pack, of Raymond is visit-  
ing at Mr. Jim Sheils'.

Mr. Idris Jenkins is working for  
Mr. Charlie Marlon.

Gus Bittner is haying with Jim  
McCulloch.

Mr. Wilfred Metz was a business  
visitor to Calgary last Friday.

Mrs. Mills, of Calgary is spending  
a week with Mrs. George Metz.

Mr. Sam McAllister was a Sunday  
afternoon visitor at Mr. N. Eckel's.

Mr. Harold Metz has taken a posi-  
tion with Mr. Dan Boettger, of  
Mayton.

Mr. R. A. Woolley, of Calgary  
spent the past week-end with Mr.  
and Mrs. N. Eckel.

Messrs. Noah Eckel and Roy  
Woolley were Three Hills visitors  
on Monday.

Miss Helen Pross is assisting Mrs.  
Emil Krebs, of Didsbury, who has  
been ill.

Mrs. A. E. Thompson is spending  
a week with Constable and Mrs.  
Jarman at Crossfield.

Mrs. C. R. Liesemer and children  
are spending a week camping at  
Keiver Lake.

Mr. and Mrs. Anthony Tarriss  
and son, of Acme were Sunday visitors  
at the home of Mr. and Mrs. A.  
E. Thompson.

Mrs. Bert Pross, Lester and Mar-  
jorie, and Mrs. T. Hunter and family  
are spending a week camping at  
Keiver Lake.

The bunch of boys who camped a  
week at Keiver Lake under the  
supervision of Mr. Spencer report a  
most enjoyable time. They returned  
home on Sunday evening after an  
open-air service under the trees,  
which was attended by many of their  
parents and friends.

## Mountain View Notes

Mr. and Mrs. Ellis Barnes and  
family have been camping at Coal  
Camp.

Many farmers are enjoying this  
propitious weather, as it facilitates  
hay operations immensely.

Congratulations are being extended  
to Miss N. Wilson, whose wedding  
takes place shortly.

The crows are a terrible pest in  
parts of the community, and have  
taken a heavy toll of young chicks.

Mrs. McLellan and daughter, of  
Teesswater, Ontario, were visitors  
at the B. A. Atkinson home during  
the past week.

Several of the boys in the district  
have been attending the camp held  
at Keiver Lake under the capable  
leadership of Mr. Spencer, student  
in charge. A service was held at  
the lake Sunday afternoon prior to  
the breaking-up of the camp.

A garden in this district has been  
utterly destroyed by the destructive  
wire worms. A trench dug around  
the garden plot, and in which is  
spread Paris Green is said to be  
effective, but locally so few can use  
this remedy on account of the poultry  
being too near.

Word was received from England  
last week regarding the retirement  
of the Rev. Thomas Newlands at  
the age of 92 years, and who has  
served in the same parish for a period  
of 57 years. He received two well-  
earned and valued presentations.  
His manse lies near the historical  
battlefield of Otterburn.

The monthly meeting of the W.I.  
was held at Community Hall on  
Thursday last. A report was given  
on the recent conference at Didsbury,  
followed by a paper on "Legislation."  
Lunch was served by Mrs. Pearson  
and her daughter, Mrs. M. Woods.  
The next meeting will be held at  
Community Hall, and for the Septem-  
ber meeting the members are  
cordially invited to the home of  
Mrs. Wm. McCoy, of Didsbury.

## WEEKLY SERMONETTE

"The earth gets as much blessing  
out of a dark cloud, as from the  
sun. So should we."

## Westcott Notes.

Westcott W.I. met at the home  
of Mrs. Ira Levagood on Thursday  
last, with an attendance of seventeen  
members and eight visitors. The  
topic for the afternoon was "Home  
Economics," and it was very capably  
handled by Mrs. H. Steckley. The  
report of the conference was given by  
Mrs. Ed. Klinck, the delegate. A  
candy contest was held and the  
visitors acted as judges. The prize-  
winners were Mrs. Jimmie Hughes,  
Miss Ivy Mitchell, and Mrs. Ed.  
Klinck. The August meeting will  
be held at the home of Mrs. Mac-  
Farlane.

## RUGBY NOTES

Members and friends of the Rugby  
W.I. enjoyed a social afternoon at  
Mrs. Hosenood's on July 22nd. After  
the usual opening, roll-call "Do,  
Say or Pay" was responded to in a  
lively manner. It was a delight to  
have Mrs. R. MacFarlane sing. Mrs.  
McArthur, of Harmanat gave a  
most delightful travelogue of a trip  
to Alaska, with map, picture and  
snapshot illustrations. Mrs. Hosenood's  
flowers were a source of much  
admiration, and all the members  
decided to make their homes "Hos-  
eood" like the rose. "Something to  
do, something to hear, something to  
see and something to eat," the  
latter a bounteous lunch served by  
the hostess, combined to make this  
social time a real enjoyment to all.

## Melvin Notes

Mrs. Ace Esler and Kenneth spent  
the week with Mr. and Mrs. A. Krebs.

We are sorry to hear that the  
little son of Mr. Edwin Jackson had  
the misfortune to break his hip. He  
is now in the Didsbury Hospital.

The dance on Monday night in  
aid of Roscoe Irwin was a success,  
and everyone seemed to have a good  
time.

A softball game was played on  
Thursday last between Go-Getter  
Girls and Springside Girls at Spring-  
side. The score was 7-16 in favor  
of the Go-Getters.

Miss Dorothy and Mr. Ralph  
Young are spending a few days in  
Edmonton this week. They were  
accompanied by their mother as far  
as Morningville.

Mr. and Mrs. P. Johnston, Ruth  
and the two younger girls, accom-  
panied by Orvin Swingle, made a  
trip out east to Ghost Pine, where  
they visited Mr. Johnston's brother  
who has been ill. They report that  
the crops in that district.

(Too late for publication last week.)

Miss Marion Johnston and Mr.  
Randolph Johnston spent Sunday at  
Mrs. Gibson's.

Mr. and Mrs. Oddie, Gordon and  
Bessie, of Pincher Creek, spent a  
few days at Chas. Young's last week.

Mr. Roscoe Irwin had the mis-  
fortune to break his leg while play-  
ing ball on Saturday.

We see that Roy is very busy  
these days digging the basement for  
his new house. We are wondering,  
Roy,

Blowouts, ruining of a wheel, and  
getting stuck in a mudhole seem to  
have been the sport of some of the  
young folk on Sunday.

Mr. and Mrs. Walter Irwin and  
son, and Mr. and Mrs. Devolin and  
daughter spent Sunday with Mr.  
and Mrs. Roscoe Irwin.
